SUMMARY

An emerging architect with a strong interest in innovative design, urban development, and socially responsive architecture. Experienced in architectural design, research, and interdisciplinary collaboration, with a particular focus on integrating spatial experience, urban context, and community needs. Demonstrates strong leadership, communication, and organizational skills through professional roles, extracurricular engagements, and national-level competitions. Passionate about exploring the intersection of architecture, technology, and social impact to create meaningful and context-responsive built environments.
